# Seniors

## Rejuvenate Spirit

**A**s seniors we were proud to be the Lanphier High School graduating class of 1991. One way we revealed this pride was by rejuvenating school spirit. Four years ago we were full of enthusiasm for the school and actively participated in many events. Unfortunately,

ly that initial zeal for our new school began to wear off as time passed. We developed interests outside of school and started to take on jobs and other responsibilities.

As a result school spirit became secondary. In the fall of '90 we began to realize that it was our final year at Lanphier High School. Many

of us saw it as a last chance to express our pride in LHS. Some seniors showed support for Lanphier by lending a hand at the annual PTA Open House. Others were involved in many Homecoming activities such as Spirit Week and working on floats for the parade. We also enthusiastically attended the King of

Hearts Dance, the International Dinner and the Senior Dinner Dance. By far the most popular way that seniors showed school spirit was by attending sporting events and cheering on their favorite Lion! ... Rahl Rahl Rahl!

# College College Onward and Upward

**P**urdue, Illinois State, University of Illinois, Northern, Southern, Western and Eastern are a few of the colleges that the Class of '91 chose to attend. Some of the seniors chose a college that had the best program for their major, and a variety of majors were men-

tioned including teaching, medicine, accounting and engineering. Those undecided about a major chose a school for other reasons — because a sister, brother or best friend went there, it was close to home, it had a good party reputation, etc. Still others planned to attend one of the area colleges such as

Springfield College in Illinois or Lincoln Land Community College. As Lynnet Heironimus stated, "I chose to go to Lincoln Land because I can afford it."

Some students planned to go to school on an athletic or academic scholarship. Others were borrowing money or working and attend-

ing school at the same time.

With so many decisions to make during senior year, which college to attend was one of the most difficult and of top priority. But the Class of '91 handled it with no problem!

# No Way It Could Happen To You

**D**o you remember . . . the first day of your freshman year, walking into the wrong class? Did you ever take the wrong book to class or forget it all together? These things happen to students every day at Lanphier High School. One can always see funny incidents occurring

around the school. People walking into garbage cans, tripping up the stairs, dropping books in the hallway, or accidentally running into a teacher.

Many other incidents occur during the year (some funny, others not so funny), and extra curricular activities are a major part of them. Rachel Roy recalled,

"Once, while doing a Pom routine, we did a set of turns and my skirt flew up and stayed up the rest of the routine." Jeremy Forbes' most memorable (but not really funny) incident happened during last year's cross country sectionals. "Two competitors from another team hid in the bushes during part of the varsity race and

right near the end came out from hiding and trotted to the finish line coming in first and second."

All sorts of funny and not so funny incidents happened during the school year, each one interesting and unique. What happened to you today?

# Siblings

## Brothers and Sisters

Senior year — your very last year in high school, and all you want to do is kick back, relax, and worry about one thing — passing those last few classes. What could possibly interfere? Only one thing, a younger sibling coming to Lanphier. It's just another responsibility your parents so generously gave

to you, but at times it sure seems more like a chore. No offense to those younger siblings, but "Hey, we quit watching you a few years ago!"

Of course, it's not the worst responsibility, and it only becomes a problem when certain situations occur. Things like your little sister forgetting her shoes for practice which means you either

have to run home at lunch or right after that 3:12 bell to get them for her. Maybe your younger brother needs a ride home after school and you have to go to work. That's always a wonderful experience when you have to race home to drop him off, and then back the opposite way to work!

Watching out for a younger brother or

sister is not the most desired responsibility of a senior. Just ask Stephanie Madison, David Lott, Tim Forbes, Amy Spann, or any other senior with a younger sibling. All in all no senior absolutely hates his/her brother or sister, but life certainly was simpler when they weren't at LHS!

# Candy Man Candy Man Mr. John Lawson

**M**r. John Lawson the tall, handsome senior dean became more than just a "man behind a desk," to the Class of '91. He was our friend and confidant.

Mr. Lawson graduated from Springfield High School and Illinois State University. He was a dean at SHS before he came to Lanphier.

As a former basketball and baseball coach he is naturally an ardent sports fan and tries to attend as many different athletic events as possible at Lanphier. After deciding to go into administration while still coaching baseball at SHS, he made the change because, "It was a newly created position." The change to administration gave him a

chance to work with different groups of students every day. In his words, "Every day is a different scene, and it is never dull."

"Why aren't you in class?" or "Be happy — smile!" is something we've all heard from our happy but silly Mr. Lawson. He's a very self-motivated person, and when students are not motivated and

want to give up, it is very frustrating to him. He wants all of his students to be all they can be and to succeed to the fullest. Nothing frustrates him more than a student who does not care about his own education and future.

If there was any thing the seniors knew all year, it was that Mr. Lawson cared about how we

felt, what happened to us, and he was always willing to help us any way he could — and that included sharing his candy with us!

As seniors, we will be moving on, but as Mr. Lawson says goodbye to the Class of '91, he will be saying hello to the class of 1995.
